1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 20 is rejected under 35 U.S.C. 102(e) as being clearly anticipated by Wright (newly cited). Wright discloses a ramp assembly for a pontoon boat 90 having a deck supported by two pontoons, the ramp assembly 10 including a ramp 50 having a walkway surface for providing ingress and egress to the pontoon boat, a first deck hanger 20 positioned at the bow (note Figure 6, for example), a second hanger 21 positioned at one of the port side and the starboard side of the pontoon boat, the ramp is capable of being attached to one of the first deck hanger and the second deck hanger, and the ramp is stowable beneath the deck and between the pontoons of the pontoon boat.

3. Claim 20 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rector (cited by Applicant). Rector discloses a ramp assembly for a pontoon boat having a deck 12 supported by two pontoons 13, the ramp assembly including a ramp 10 having a walkway surface for providing ingress and egress to the pontoon boat, a first deck hanger (port side hanger 14) positioned at the bow, a second hanger (starboard side hanger 14) positioned at one of the port side and the starboard side of the pontoon boat, the ramp is capable of being attached to one of the first deck hanger and the second deck hanger, and the ramp is stowable beneath the deck and between the pontoons of the pontoon boat.

4. Claims 3-19 are allowed.

5. Applicant's response has been considered a request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

6. Applicant's arguments with respect to claim 20 have been considered but are moot in view of the new ground(s) of rejection.
